

Amy LeBoeuf

EDUCATOR &
DIRECTOR LOUISIANA
ONE HEALTH IN ACTION

PROFESSIONAL BIO

I am a Louisiana Middle School Educator with 20 years of experience. I am also the founder and director of the Nonprofit Louisiana One Health in Action and serve as the Chair of the US One Health Education Team on the the International One Health for One Planet Education (1HOPE) Initiative.

WHY ONE HEALTH?

In 2015 our 11 year old son became sick with a mysterious illness. Nearly 2 years later a diagnosis was finally made using a One Health approach. This approach between a physician and a veterinarian saved his life. I am passionate about raising awareness and education of the One Health concept and One Health issues that affect our communities and children.
